

Dear Parents or Guardians,

Every 2 years, the athletes must have a concussion baseline test completed in order to participate in sports. Minersville Junior/Senior High School has IMPACT which is a computerized version of a concussion test. It is **mandatory** this test be completed prior to the athlete participating in any official athletic practice or game. For the 2019-2020 athletic year, the following students will need to complete the test: **seniors, juniors, sophomores, freshmen, 7th graders, and all new athletes.**

Below, I have provided a schedule of dates for the athletes to complete the test prior to the start of **2019-2020** athletic year. Test dates will be given by teams, and I will provide an extra time slot for “Other Athletes” where the winter and spring athletes will be able to take the test. The winter and spring sports will also have an opportunity prior to their season to complete the concussion test. If an athlete cannot make their team’s testing date, they can come on the day for “Other Athletes.”

If you have any questions or your athlete is unsure if they need to take the test, please email me at the address provided below. If these dates and/or times change, you can either obtain the change from your athlete’s perspective coach or through the Minersville Athletics Twitter or Facebook accounts.

Sport	Date	Time	Room/location
Football	7/9/2019	7am-8am	150
Jr. High Football	7/9/2019	8am-9am	150
Girls’ soccer	7/10/2019	7am-8am	150
Boys’ soccer	7/10/2019	8am-9am	150
